

Sagdiana Kismanova

Business Manager Intern

kismanovasagdiana@gmail. com · +60 16-841 7176 · Kuala Lumpur, Malaysia · [linkedin.com/in/sagdiana-kismanova](https://www.linkedin.com/in/sagdiana-kismanova)

PROFILE

Business Management student at Asia Pacific University with hands-on experience in operations analysis, international business, and digital product research. Skilled in applying analytical frameworks to real-world data and translating complex findings into actionable business insights. Certified in Google UX Design with practical experience in user research and prototyping. Seeking a Junior Business Manager role where I can contribute to data-driven decision-making and process improvement.

PROJECTS & RELEVANT EXPERIENCE

UX Designer - QuickBook Service Booking App

Mar 2026 – Present

Google UX Design Certificate Capstone · Coursera

- Conducted structured user interviews to identify key pain points; synthesized findings into primary personas and end-to-end journey maps, demonstrating strong analytical and problem-solving skills.
- Designed low-fidelity wireframes and interactive prototypes in Figma; iterated across usability-testing rounds to enhance user experience, showcasing attention to detail.
- Delivered research insights and design rationale in stakeholder presentations, showcasing strong communication skills and product thinking applicable to digital banking interfaces.

International Business Analyst – Kazakhstan & Kaspi.kz

Apr 2026

Academic Projects · Asia Pacific University

- Analyzed the impact of international business on Kazakhstan's economic growth, focusing on GDP, trade, and FDI flows
- Evaluated structural dependence on natural resources and its implications for long-term economic stability
- Conducted strategic analysis of Kaspi.kz using SWOT and international business frameworks
- Assessed risks related to regulatory pressure, market concentration, and international expansion
- Applied concepts such as OLI framework and transnational strategy to evaluate firm competitiveness

Operations Analyst - Coca-Cola Supply Chain Case Study

2025

Academic Project · Asia Pacific University

- Analyzed operations of a company distributing over 1. 9B products daily across 200+ countries, benchmarking supply chain efficiency against global standards, showcasing analytical skills.
- Applied inventory and quality frameworks to evaluate stock control; identified optimization opportunities projected to reduce excess inventory, demonstrating a focus on operational efficiency.
- Assessed over 5 operational KPIs to identify process inefficiencies and drafted structured improvement recommendations, demonstrating a focus on process optimization.
- Evaluated an ESG roadmap targeting 50% recycled material usage by 2030; integrated sustainability into financial analysis, showcasing attention to detail and analytical skills.

Founder & Strategist - TrashToTrend (Sustainable Fashion Startup)

2024

Startup Concept Project · Asia Pacific University

- Developed a comprehensive business model grounded in effectuation theory and circular economy principles, covering revenue streams and cost structure, demonstrating analytical and strategic thinking.
- Designed a social-media-led acquisition strategy targeting Gen Z consumers; modeled unit economics to validate financial viability, showcasing attention to detail and strategic thinking.
